CAREER OBJECTIVE

Full Stack Developer specializing in the MERN stack with experience in building scalable, real-time, and user-centric applications. Proficient in creating dashboards, AI tools, and comparison platforms. Passionate about writing clean, maintainable code, delivering responsive design, and solving real-world problems through full-stack development.

SKILLS

- **Languages:** JavaScript (ES6+), Python, C++
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, SQL*
- **Tools:** Git, Vs Code, Netlify, postman
- **Core CS:** Data Structure and Algorithm*, OOPS, DBMS
- **Others:** REST APIs, JWT Authentication, Redux, Context API

* Elementary proficiency

EXPERIENCE

MERN Stack Intern | Techsaga Corporation (on-site)

Jan. 2025 – Jun 2025

- Built and maintained features in multiple MERN stack projects under senior developer guidance.
- Developed and integrated RESTful APIs using Express.js & MongoDB for scalable web applications.
- Designed responsive user interfaces with React.js & Tailwind CSS, improving user engagement.
- Tested and debugged backend APIs using Postman, ensuring 99% accuracy in responses
- Collaborated with senior developers to build 3+ full-stack features, contributing to live client projects.
- **Key Achievement:**
 - Built features that reduced frontend loading time by ~20%.
 - Assisted in API development that improved data fetch efficiency by ~15%.

PROJECT

DNS Server with Real-Time Dashboard – Full Stack Web

Tech: Node.js, Express.js, MongoDB, React.js, Recharts, Socket.io

Jun. 2025

- Developed a custom DNS server using Node.js and Express.js to capture and log DNS queries in real time.
- Implemented a MongoDB-based logging system to store and track domain request data efficiently.
- Built a real-time dashboard using React.js and Recharts to visualize key metrics like requests/sec, top queried domains, and domain trends.
- Integrated Socket.io for live data transmission, enabling real-time updates on the frontend without page refresh.
- Designed a clean, responsive UI for the dashboard with charts, filters, and summary metrics.

Make My Notes - Note-Taking Application | [GitHub](#) | [Netlify](#)

Tech: React.js, LocalStorage

Dec. 2024

- Designed a responsive note-taking app with CRUD functionality.
- Used local storage to store and persist user notes offline.
- Supported multiple note formats including code, text, and JSON.
- Collaboration and Sharing: Added features for data sharing and collaboration, including downloadable notes and direct sharing links.
- Enabled note editing, copying, downloading, and sharing with users.

EDUCATION

- **Amity University, Noida**
Master of Computer Application (MCA)

Apr. 2024 - Present

- **HLM Group of Institution, Ghaziabad**
Bachelor of Computer Application (BCA)

Jun. 2021 – Apr.2024
